

*Le Pigonnet*  
AIX-EN-PROVENCE

Meet Cézanne, he often sat next to a flowerbed under a century old tree gazing at the Sainte-Victoire mountain from the Pignonnet's gardens. As a worldwide recognized painter, he was known for his ability to translate details into harmonious color combinations. Jill is a passionate artist inspired by Cézanne's work, who passes on her knowledge and creative philosophy. She will start by teaching you about the colors and the art of mixing a palette. Jill will guide you through the twists of using nature as a source of inspiration for finding harmony in the color palette. The chef will then serve you a traditional Provençal lunch on the terrace overlooking the gardens. The afternoon will kick off with a demonstration painting by Jill, following which it will be your turn to choose to practice painting the garden or still life motifs.

*From 490€ per person with 2 nights at Le Pignonnet*
